FOR IMMEDIATE RELEASE

Denver International Airport engages local contracting companies for work on Concourse Expansion project

DENVER – Aug. 3, 2018 – Denver International Airport (DEN) will host an industry forum on August 7 with members of the Colorado contracting community to learn more about the DEN Concourse Expansion Project and subcontracting opportunities associated with the next phase of the project. This forum is designed to introduce local contracting firms to the project team and highlight key contracting needs while also providing crucial information about how to work with DEN.

The forum will include:

- A brief overview of the CEP
- Information about the RFP project procurement schedule and package release dates
- Q&A with DEN and City and County of Denver staff and project teams from the two CEP Joint Ventures: Holder Construction/FCI Constructors Inc. and Turner Construction/Flatiron Construction
- Networking opportunities

In May 2018, DEN broke ground on a project that will add 39 new gates to the airport by 2021, an increase in gate capacity of 30 percent. The new gates will be added to the end of each concourse, providing all of DEN's airlines an opportunity to grow and for DEN to accommodate new airlines, including international carriers.

The \$1.5 billion Concourse Expansion Project is being managed by two joint-ventures: Holder Construction and FCI Constructors Inc. on Concourse B-East and Concourse C-East, and Turner Construction and Flatiron Construction on Concourse A-West and Concourse B-West. HNTB Corp. and Jacobs Engineering Group were contracted for architectural and design services for the project.

Forum Details:

When: August 7, 9:00 a.m. – 12:00 p.m.
Where: Renaissance Denver Stapleton Hotel, 3801 Quebec St., Denver, 80207
More Details: [Available here](#)

Denver International Airport is the fifth-busiest airport in the United States. With more than 61 million passengers traveling through the airport each year, DEN is one of the busiest airline hubs in the world's largest aviation market. DEN is the primary economic engine for the state of Colorado, generating more than \$26 billion for the region annually.
