

FOR IMMEDIATE RELEASE

Welcome Aboard The ‘Colorado Trains & Planes’ Exhibit at Denver International Airport

DENVER – Nov. 28, 2018 – The newest art exhibition at Denver International Airport (DEN) presents a unique snapshot of two of Colorado’s major industries – aviation and railroad. “Colorado Trains & Planes” features an array of historical and modern artifacts that tell a visual story of the guiding industries in Colorado.

Whether built to ride on rails or soar in the sky, trains and planes have always been an awe-inspiring part of our history and lives. A journey through “Colorado Trains & Planes” highlights the long-standing role each industry has played in shaping the state’s development, including agriculture, technology and the economy. The exhibit captures the spirited ways Coloradans have embraced transport and travel with artifacts, including model airplanes and trains, provided by experts and enthusiasts from around the state.

“Colorado Trains & Planes” is located on Ansbacher Hall in the Jeppesen Terminal, Level 6 North before A Bridge Security, through February 2019. [You can also see photos of the exhibition here.](#)

About DEN’s Arts Program

The DEN Arts Program administers the City and County of Denver’s “one percent for art” ordinance which enhances public places and features nearly 40 site-specific works including sculptures, murals and other installations. The pieces are displayed in outdoor landscapes, inside Jeppesen Terminal and on airport concourses, as well as in the train tunnels and on the train itself. In addition to its permanent art collection, DEN curates temporary exhibitions, collaborating with museums, cultural institutions and arts organizations to present the highest quality two- and three-dimensional work. For more information, visit www.flydenver.com/art.

Denver International Airport is the fifth-busiest airport in the United States. With more than 61 million passengers traveling through the airport each year, DEN is one of the busiest airline hubs in the world’s largest aviation market. DEN is the primary economic engine for the state of Colorado, generating more than \$26 billion for the region annually.
