United Airlines Expands Denver-Europe Flights
New nonstop service to Munich, Germany begins in April 2022

DENVER – Oct. 14, 2021 – Today, United announced new service between Denver and Munich, Germany (MUC) beginning April 23, 2022. The flights will operate daily, year-round onboard a Boeing 787-9.

United joins Star Alliance partner Lufthansa in offering nonstop flights between Denver and Munich. As one of the most efficient hubs in Europe, Munich provides connectivity to dozens of destinations across Europe, Africa, the Middle East and Asia.

“United’s continued investment in more international flights from Denver is encouraging,” said DEN CEO Phil Washington. “This new service to Munich provides more options for those traveling to Europe and also for connecting passengers through DEN.”

In 2019 Munich ranked as DEN’s seventh-largest market in Europe with nearly 35,000 annual travelers between the two cities. In addition to Munich, United’s transatlantic route network from Denver currently includes daily flights to Frankfurt (FRA), and daily flights to London-Heathrow (LHR) are scheduled to resume on March 4, 2022.

Denver International Airport is the third-busiest airport in the United States and one of the top ten busiest airports in the world. DEN is the primary economic engine for the state of Colorado, generating more than \$33 billion for the region annually.
