FOR IMMEDIATE RELEASE

Denver International Airport Welcomes Flair Airlines

The Canadian ultra low-cost carrier will offer nonstop flights to Toronto

DENVER – Oct. 19, 2021 – Today Flair Airlines announced new service to Denver International Airport (DEN). The Canadian ultra low-cost carrier (ULCC) will provide nonstop service three-times weekly to Toronto-Pearson International Airport (YYZ) beginning April 15, 2022.

“Expanding Denver’s global connectivity not only aids in our economic recovery, it also continues to elevate our city as a global hub,” Denver Mayor Michael B. Hancock said. “As borders reopen and we begin to welcome back international travel, the investment by Flair into Denver is a big boost for our community and local businesses.”

Flair is a Canadian-based ULCC that started passenger service in 2017. In the past four years, the carrier has expanded its network to include 19 destinations in Canada and 9 cities in the U.S.

“Flair Airlines is excited to bring our low fares and exceptional Canadian service to the Mile High City,” says Stephen Jones, President & CEO of Flair Airlines. “Connecting Denver and Toronto with nonstop flights and Flair’s signature low fares will provide endless opportunities for sports enthusiasts, foodies and adventure travellers on both sides of the border.”

With this new service, Flair will become DEN’s 25th airline. In 2019 Toronto ranked as DEN’s largest market in Canada in terms of demand, with nearly 125,000 travelers annually between the two cities.

“We are pleased to welcome Flair as DEN’s newest airline partner,” said DEN CEO Phil Washington. “These new flights to Toronto will provide more options for travelers visiting Canada and further increase Denver’s accessibility to visitors.”

Flair will operate DEN-YYZ service with 189-seat Boeing 737 MAX 8 aircraft.

Denver International Airport is the third-busiest airport in the United States and one of the top ten busiest airports in the world. DEN is the primary economic engine for the state of Colorado, generating more than \$33 billion for the region annually.
